

MANUFACTURER SERVICES

Pharmaceutical Returns Service (PRS) holds licenses from various regulatory bodies such as the DEA, EPA, and has nationwide accreditation from State Boards of Pharmacy. These licenses empower PRS to expertly manage the disposal of scheduled, hazardous, and non-hazardous pharmaceutical waste, strictly adhering to the specific and rigorous regulations outlined by each agency.

AFFORDABLE

We take pride in offering the most cost-effective return service available. Despite escalating rates in the industry, we have kept consistently affordable pricing across our comprehensive range of offerings.

ECO-FRIENDLY

At the heart of our operations lies a commitment to environmental responsibility. Our reverse distribution solutions not only optimize resources but also champion sustainability.

40 YEARS OF PROVIDING REVERSE DISTRIBUTION SERVICES

PRS excels in navigating complex state and federal regulations for pharmaceutical product destruction, ensuring manufacturers comply with evolving laws like the Controlled Substances Act and other relevant federal and state regulations.

Our Services

- Tailoring our services to meet the unique needs of each manufacturer, a dedicated reverse distributor creates personalized service plans.
- State & Federal Compliant Destructions
- Regulatory Compliance Reports & Record Keeping
- Credit Reconciliation Program
- Product & Recall Returns Management
- Environmentally Responsible Destructions
- DEA Audit Support & Training
- REMS Program

Compliant Destructions

- Legal Compliance: Strict adherence to EPA & DEA pharmaceutical waste regulations.
- Public Safety: Proper destruction prevents unauthorized access or use, safeguarding public health and safety, while eliminating potential liabilities.
- Environmental Protection: Compliant destruction methods prevent pharmaceuticals from entering the environment.
- Risk Mitigation: Compliant destruction minimizes the risk of diversion, counterfeiting, or misuse of pharmaceutical products, thereby protecting against potential liabilities.

Compliance and Record Keeping

- Regulatory Adherence: Meticulous record-keeping is crucial for drug manufacturers. These records verify the adherence to regulations, aid in audits, and offer legal protection.
- Quality Assurance: Detailed records provide tracking and verify the liability chain, quantity, safety, and security of their products.
- Audits and Inspections: Accurate records are essential during regulatory audits and inspections.
- Legal Protection: Comprehensive records function as legal documentation, providing evidence of compliance in cases of audits, inquiries, or litigations.

Advantages of our Manufacturer Services

Credit Reconciliation

- Involves meticulous review and assessment of each job.
- Guarantees precise and accurate accounting of credits.
- Ensures thorough reconciliation of credits.
- Leaves no room for discrepancies or errors in the reconciliation process.

Returns Management Program:

This program utilizes PRS's proprietary software and our inspection protocols to assess returned pharmaceuticals for recalls, expiration, integrity, and potential tampering, ensuring the safe and proper disposal in accordance with regulatory guidelines. Detailed documentation of returned items enables efficient handling, reporting, and compliance with all state and federal agencies.

Audit Support

PRS supports our clients by providing audit guidance, documentation customized for DEA audits, facilitating compliant record keeping, and providing consultation and record backup services during the DEA audit.

Environmental Responsibility:

- Preventing Environmental Contamination
- Preserving Water Quality
- Reducing Impact on Wildlife
- Compliance with Regulations
- Long-term Environmental Impact

Drug manufacturers and reverse distributors coordination play a crucial role in environmental conservation by responsibly destroying their products.

24/7 Compliance Assistance

- Service offers uninterrupted guidance.
- Available round-the-clock.
- Addresses inquiries or requirements related to mandated federal forms.
- Ensures constant adherence to regulatory standards.
